

Dog Bite Protocol Massachusetts

With over 100 years of history, the Dog Bite Protocol in Massachusetts is a well-established and widely recognized standard for dog bite cases. It is a legal document that outlines the responsibilities of dog owners and the rights of victims. This protocol is designed to ensure that all dog owners are held accountable for their actions and that victims receive the compensation they deserve. The protocol is a key component of the state's dog bite laws and is used by courts to determine the outcome of dog bite cases.
